The prior art of record Niida et al (US 6,052,507) discloses an apparatus for storing audio and/or video data which is transmitted in the form of a packet including a program specific information (PSI) (Figure 5), the audio and/or video data storing apparatus comprising: an audio/video parser for parsing an audio and/or video packet using the packet identification information and outputting an audio and/or video packet (Figure 12 shows the output of audio or video packet information after the information has been parsed as described in Column 13 Lines 13-46); a storage medium (Figure 6 shows memory 106 and 108); and a storage medium (Figure 6 shows memory 106 and 108). Furthermore, Negishi et al (US 6,754,239) teaches a multiplexing and transmitting apparatus wherein the packet parser extracts information in regard to the additional information being inputted (Figure 1 shows the inserting of additional information into the data stream); however, the prior art of record fails to disclose, teach, or suggest

- o a packet parser that parses a received transport stream (TS) packet to output at least one PSI packet and an AV packet corresponding to the at least one PSI packet, extracts packet identifier information from the at least one PSI packet extracts additional information, corresponding to the PID, from the at least one PSI packet and wherein the additional information does not include the PID;

- an AV.parser that parses and outputs the AV packet using the PID;
- an AV.producer for that inserts the additional information extracted from the packet parser into a particular region in the AV packet from the output AV parser;
- a controller that controls the AV producer and the storage medium so- such that the additional information is inserted into the AV packet and the AV packet in which the additional information is inserted is stored in the storage medium as the AV data corresponding to the AV packet and the at least one PSI packet, wherein the at least one PSI packet is not stored in the storage medium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
